EXPERIENCE

Weblabs Studio | Frontend Developer

May2024-Present | India

- Developed responsive websites and web apps using HTML5, CSS3, JavaScript, and React.
- Collaborated with back-end developers and designers to deliver fully functional web solutions.
- Optimized website performance, accessibility, and mobile responsiveness.
- Implemented UI/UX best practices to enhance user interaction and engagement.
- Used version control (Git/GitHub) and task management tools for efficient workflow.
- Integrated APIs and third-party libraries to add interactive features.

Weblabs Studio | Studio Designer

Jan2025-present | India

- Designed responsive web and mobile interfaces using Figma
- Created user flows, wireframes, and high-fidelity prototypes
- Collaborated with developers for consistent, accurate implementation
- Built scalable design systems with reusable UI components
- Conducted user research and usability testing to refine designs
- Utilized Figma auto-layout, variants, and interactive components for efficiency

Graphics Designer / Video Editor | Freelance

- Designed branding materials including logos, banners, thumbnails, and social media content.
- Created high-quality video edits for YouTubers including intros, outros, and transitions.
- Managed visual content for multiple YouTube channels, increasing viewer retention.
- Proficient in Adobe Creative Suite (Photoshop, Illustrator, Premiere Pro, After Effects).
- Worked closely with clients to deliver content tailored to their audience and branding.
- Balanced multiple freelance projects with consistent client satisfaction and timely delivery.

PROJECTS

• CareerVista – Career Counselling Website

Developed an interactive career guidance platform to help students explore educational and career paths.

• Website Dev/Designing

Built multiple modern, responsive websites demonstrating expertise in frontend development, animation, and performance optimization

• YouTube Branding & Media Design

Adobe Photoshop, Premiere Pro, After Effects

Designed professional thumbnails, short-form videos, and motion graphics for a gaming/streaming channel, improving content engagement and visual consistency.
